

MESSAGE FROM CHAPTER PRESIDENT CAMERON TIPTON,
ASA, ARM-MTS

January 19, 2022

Dear Houston Chapter ASA Members,

I hope everyone has had a great and productive start to 2022!

Houston Will Offer USPAP Courses in the Spring

I know there have been many questions regarding USPAP courses this year, particularly regarding the 2-year currency requirement after the extension of the 2020-2021 USPAP version through the end of 2022. The **2-year currency requirement remains in effect** per both the ASA and Appraisal Foundation. However, it is important to note that the requirement for USPAP is a **calendar year** requirement, meaning that if you previously took USPAP in January 2020 an update course is not required until the end of the 2022 calendar year. ASA Houston is planning to offer USPAP courses in the **spring of this year**. The decision to delay the course offering from our standard January timeline was made with a hope that more information regarding the next issue of USPAP will be available and thus make the course more beneficial with the understanding that all members in compliance with the 2-year requirement are already highly familiar with the current issue of USPAP. A date and further details will be announced as soon as logistics are finalized in the coming weeks, so be on the lookout for an email and website post.

New Year, New Venue

I am pleased to announce that our chapter meetings have moved to [Grotto Ristorante](#), located at 4715 Westheimer 77027. This location will allow us greater flexibility as our meeting participation numbers continue to fluctuate during this continued time of uncertainty (I cannot wait to stop saying that!). The menu looks great and hopefully the central location will be a plus for all. [Please join us for our first chapter meeting](#) on **February 3, 2022 at**

11:30 with David Crick. Dave is both the International President for the ASA and a world-renowned expert in the valuation of private aircraft. He is an excellent speaker and always has incredible stories to share and will be discussing the unprecedented *boom* in the private jet market.

Energy Valuation Conference

Please mark your calendars for this year's [Energy Valuation Conference](#) scheduled for **May 12, 2022**. EVC will be presented as a hybrid event this year so make plans to attend at The Briar Club or virtually from anywhere. EVC was the winner of ASA Educational Event of the Year for 2021 and always proves to be a great opportunity for networking and education. Don't miss out!

Please do not hesitate to reach out with any questions. I hope to see you in person on **February 3rd!**

All The Best,

Cameron Tipton, ASA, ARM-MTS
